
Self-Care Questionnaire

Patient Name _____ Date _____

Research shows that people who take time to recharge and restore are more creative, happier, and more successful. This questionnaire will help you identify the areas of your life that are well-tended and those that could use more time and attention. This is not meant to be a diagnostic assessment. Instead, it is a tool to help you see what you are doing to care for yourself. There are no right or wrong answers to these questions, and some of them may require a bit of thought. Take your time and answer each question to the best of your ability based on your self-care practices right now.

Instructions

Score Interpretation and Next Steps

The higher your score in each section, the better you may be at taking time for self-care and wellness in each aspect of your life. Trying to improve your scores can help create more balance in your life.

Consider items on which you scored 3 or lower. How can you modify your behavior to improve your self-care practices? What goals might you need to set in order to make these changes?
